ST. ANTHONY'S CHURCH SCHOOL

Gangondanahalli, Bengaluru-560026

Our School provides a vibrant and enriching learning environment through a variety of Educational, Cultural, Co-curricular and Extracurricular activities.

These activities are designed to develop students' knowledge, creativity, confidence, leadership qualities and overall personality. We organize various educational sessions, FDP, seminars, workshops and interactive learning programmes to enhance students' academic knowledge and practical skills. Special sessions on environmental awareness, health and hygiene, personality development, career guidance, moral values and life skills help students gain knowledge beyond textbooks.

Cultural activities are conducted to encourage students to appreciate India's rich cultural heritage and traditions. Celebrations of national festivals, religious occasions, cultural days, dance, music, singing, drawing and other artistic performances etc.. provide opportunities for students to showcase their talents and creativity. Various indoor and outdoor sports, games, yoga, karate and physical fitness activities are organized to promote teamwork, discipline, sportsmanship and a healthy lifestyle among students.

Activities such as investiture ceremonies, student leadership programmes, group discussions, competitions, public speaking and stage performances help students develop confidence, communication skills, responsibility and leadership qualities. Students are encouraged to participate in plantation drives, cleanliness campaigns, environmental awareness programmes and community-oriented activities. These initiatives nurture social responsibility and care for nature.

At St. Anthony's Church School, every activity is an opportunity to learn, explore and grow. Through a balanced combination of academics, cultural programmes, sports and value-based education, Our school strives to nurture responsible, confident, creative and compassionate individuals who are prepared to face the challenges of the future.
