*To encourage, appreciate and inspire all students to strive for excellence.

*To instill love for God, people and creation, so as to help them live in peace and harmony with all.

*To prepare students to play an active and responsible role as global citizens.

Activity Report: Annual Report of Assisi English Medium School 2025-26

Assisi English Medium School has strength of 393 students. We have a teaching staff of 18 members and a non-teaching staff of 8 members, who all are diligent and dedicated to their service which is the key to the success and achievement.

“Team work divides the task and multiplies the success” One of the most Solemn Occasions of the school was the Investiture ceremony where we had the formation of the school cabinet. This was to enable our students to understand their rights, duties and responsibilities; and to empower and train them to become leaders. In this sacred ceremony the school prefects took an oath to abide by the rules and regulations of the institution and to inculcate the same in their fellow students. As per the oath that they took, they perform their duties very diligently and maintain discipline in the school.

“The will to win, the desire to succeed, the urge to reach your full potential. These are the keys that unlock the door to personal excellence.” It gives me a great sense of pride to share the commendable performance of our SSLC students in the board examination conducted by the Karnataka Secondary Education board 2025-26. Our students performed remarkably and brought a lot of praise and honor to the school. We achieved an overall result of 100%, with all 32 students passing the examination. Out of the 32 students who prepared for the examination, 14 students secured distinction, 16 students obtained a first class and 2 students secured a second class. Among 32 students seven students scored 100% in different subjects.

The names of the toppers are as follows-

1. Shreya Ganesh Shanbhag – 98.56%, school level I rank, Taluka level third rank and State level 10th rank.
2. Rakshali Kamalakar Naik -96.96 % School level 2 rank, Taluka level tenth rank.
3. Varun Rama Gouda - 94.88% School level 3 rank.

"The secret of your success is determined by your hard work and strong focus on your goal." To ensure consistent academic progress, periodical assessments and evaluations are conducted for students through Lesson based Assessment Tests, Formative Assessments (FAs) and Summative Assessments (SAs) and preparatory exams. The outcomes of these assessments are regularly communicated to parents, enabling them to support their children in improving their academic performance effectively.

"Co-curricular activities really help in developing each and every part of a child." Our school not only focuses on the intellectual development of the child but also gives them an equal opportunity to participate in various co-curricular activities. Apart from the competitions conducted within the school, our students participate in many interschool competitions. In Pratibha Karanji too our students have participated in various events and won many prizes.

Intelligence and skills can only function at the peak of their capacity when the body is Healthy and strong. This year, we proudly hosted the Manki Zonal Level High School Sports Meet for two days. Students from 12 schools enthusiastically participated, showcasing remarkable talent and sportsmanship. Amidst this vibrant gathering our students shone brilliantly, bringing laurels to the school through their outstanding performance in games and athletic events. Their achievements have filled us with immense pride and joy.

'Our obligation to our country endures throughout our lives'. One of most distinctive features of our school is the heartfelt celebration of National days and birth anniversaries of our national leaders, children's day, teachers' day, School feast and religious festivals. We also observe several significant occasions – such as World Environmental day, International Yoga day and national science day etc. with sincere dedication and active participation.

We have a house system in which students from Std 1 to 10th are grouped into four houses, Blue, Red yellow and Green. This system fosters the students to work as a team and participate in friendly competition.

"Learning should be a joy and full of excitement" To enrich this experience students were taken to educational excursions. The trip offered a wonderful blend of education and enjoyment, culminating in a delightful picnic that left them with cherished Memories.
