

St. Thomas Education Society®

Name of the Secretary: **Fr. Bibin Baby CMI**

Introduction

- Name of the Society : **St. Thomas Education Society®, Mysuru**
- Year of Establishment : **1969**
- Brief background of the Society

St. Thomas Education Society is registered under the Karnataka Society Registration Act of 1960, with its registered office located in the State of Karnataka, and its present address at Carmel Bhavan, Mysore.

Recognizing that Education is the key to nurturing responsible citizens and fostering a harmonious society, our mission is to provide education, promote literacy, instil moral values, and offer technical and scientific knowledge primarily to children and others, regardless of their race, caste, creed, community, religion, or social status. Our goal is to equip them to become productive and responsible members of society.

With this vision in mind, we have established educational institutions in several districts of Karnataka, including Mysore, Coorg, Hassan, and Dakshina Kannada. Our particular focus has been on underserved rural areas, such as Mundaje in Dakshina Kannada, Arkalgudu in Hassan, and Shanivarasanthe in Coorg, where economic challenges are prevalent. This education is made possible through our network of 16 schools and 2 colleges. We follow the principle that economically prosperous institutions support those that are economically disadvantaged. These institutions serve as beacons of hope, extending educational opportunities to students from diverse backgrounds and economic circumstances, enabling them to access quality education and work towards a brighter future.

Society Activity Report

Orientation for Staff

A half-day orientation program was conducted for the teaching staff of STES in online mode. Both the President and the Secretary of STES took a keen interest in organizing the orientation program for the staff to empower them to play a special role in the formation of each and every student entrusted to their care.

Social Orientation Programs

We also operate special schools to address the needs of differently-abled children who are an integral part of our society. These schools are staffed with specially trained employees dedicated to their care and development. One such institution is the Christ Health and Wellness Academy in Jettihundi, Mysore, focused on catering to the needs of differently-abled children from financially struggling families. We conducted various programs for these students throughout the year.

Colligo

STES takes pride in nurturing a dedicated team of 900 employees, including both teaching and non-teaching staff. We are delighted to see our employees working harmoniously under one common umbrella, transcending differences in caste, creed, and religion. We value and celebrate this diversity as it contributes to the vibrant and inclusive culture of our nation.

Chavara Cup

The Chavara Cup 2025 was held on Saturday, 15 November 2025 at Christ ICSE School, Hunsur, beginning at 9.00 a.m. The event was organized with great enthusiasm and witnessed active participation from students, teachers, and guests. The program commenced with a prayer and welcome address. Various sports and games were conducted throughout the day, promoting teamwork, sportsmanship, and healthy competition among the participants. Students from different schools enthusiastically participated in the competitions and displayed remarkable talent and discipline.
