

A splash of colours, a bundle of smiles, and a day full of joyful learning!

Colours Day was celebrated with great joy and enthusiasm by the Kindergarten students of Carmel Central School, Kotekar on 9th February 2026. Each class was assigned a specific colour such as red, pink, blue, yellow, and more. Students and teachers came dressed in their respective colours, transforming the campus into a vibrant and cheerful sight.

The activity room was beautifully decorated with balloons and colourful embellishments. Children brought toys matching their class colour, which were neatly displayed, creating a lively and attractive environment. Class notice boards were creatively designed to reflect the assigned colours, and various colour-based activities were conducted.

The little ones joyfully sang songs and participated in fun-filled activities, making the learning experience engaging and enjoyable. The celebration helped children enhance colour recognition, build confidence, and learn through play.

The programme concluded with a meaningful message by the Principal, Sr. Pramila, and the Administrator, Sr. Julie Ann, encouraging the children to appreciate the beauty of colours in nature and everyday life.

It was truly a colourful and memorable day for all our young learners.
