

Environment Day 2024 Shoe Donation Drive

Sophia Interact Club and YUVA Bengaluru team teamed up on June 5th, 2024 in line with this year's theme of land restoration. Circulars and posters were sent out to the school children to bring their used sports shoes, of all sizes instead of throwing them. The used shoes would be put to

better use with a planned distribution amongst poor rural school barefoot children to walk safely in comfortable shoes without hurting their feet

this academic year. This will surely guarantee

more school goes in the rural area,

lesser synthetic waste material from used shoes in the landfills and a wave of awareness among our schoolchildren.

This collection cum donation drive was an act of Caring for Creation encouraged by

Principals Sr.Alpana, Sr Vishala, Sr.Madhuja and Treasurer Sr.Pushpa and a small step forward to mitigate climate change.
