

## **Holy Cross Sisters School, Hassan**

Holy Cross Sisters School at Hassan started in the year 2001 with Junior KG. Since each year one class was added it took time to be a full fledged school. The first batch of std. 10<sup>th</sup> passed out in the year 2013. So far 10 batches have passed out with 100% results. The local farming community had requested sisters to have English medium school for their children. Sisters gave thought to it keeping in mind the quality education with the promotion of values. We admit students irrespective of casts, religion, profession and biased ideas. The activity based education has helped students to excel in their academics and personal lives as well. Our school gets “A” grade by Hassan education department reports. We are aware of the challenges of running an educational institution and the competitions. Therefore we update the school and its faculties time to time as per the need.
