

On January 26th, 2024, St. Augustine School celebrated a harvest festival with the theme **Incredible India**. Parents were divided into five groups based on their respective state: Tamilnadu, Kerala, Karnataka, Andhra Pradesh and Telangana and North India. Various competitions including dance, singing, speeches, a bride and groom event, and stalls representing the cultural diversity of different states were organized. This initiative brought parents together, fostering a deeper understanding of the importance and diverse traditions across India. It also raised awareness among children. Our efforts were acknowledged by a Kerala monomania news channel, and overall, the event provided a valuable experience for parents, teachers, and students alike.
